

ELECTRIC
NATION
VEHICLE TO GRID

COVID-19 POLICY DOCUMENT

VERSION 1.0 - REVISED JUNE 2020

The document contains important information for customers regarding the Electric Nation Vehicle to Grid Project.

Please read this in full to ensure you understand the COVID-19 Policy and do note that this document will be updated regularly.

Further project information can be found at www.electricnation.org.uk and in the FAQ section.

GENERAL INFORMATION

PLEASE NOTE THAT ANY SITE ACTIVITY IS SUSPENDED UNTIL FURTHER NOTICE. THIS INCLUDES CHARGER INSTALLATIONS AND SITE VISITS.

CrowdCharge is treating the COVID-19 epidemic with the upmost seriousness and has been acting to safeguard employees using the latest official UK Government advice.

CrowdCharge has already implemented their own internal contingency plans and believe we can operate as normal during the initial stages of project recruitment.

We have updated our project enquiry form to help identify households where there is a higher risk of contact with those more vulnerable to COVID-19, for example older individuals and those with chronic underlying health conditions.

In regards to the risk assessments relating to the Electric Nation Vehicle to Grid project, we would like to ensure that we are committed to protecting the vulnerable, therefore it is extremely important that you inform us if you or someone you have face-to-face contact with falls into the vulnerable category, so we can take the necessary precautions in alignment with the latest UK Government advice.

TRIAL IMPACT INFORMATION

As currently outlined, the project trial is due to run from March 2021 until March 2022, with charger installations taking place Autumn 2020. However, due to the current circumstances surrounding COVID-19, installations may be delayed and therefore project dates may be impacted.

CrowdCharge are working closely with their suppliers regarding their COVID-19 policies over installations to ensure we have the necessary steps in place such as minimising all interaction between those who are extremely vulnerable and others. These policies will be reviewed and changed in accordance to the latest Government advice.

We understand this is an anxious time for everyone, we will always look to keep our information up to date and try and keep all participants and interested parties informed regularly with any project decisions and necessary changes.

CrowdCharge would like to thank you for your support and interest in this innovation project.
